# Angular - Crash course

## Course details

**Duration**: 1 day     **Cost**: $760 (ex gst)     **To register email:** training@catalyst.net.nz

## About the course

The course will teach you how to build modern web applications using Angular.

It goes over the basic concepts needed to start building and by the end of the course you will have built a small application using this framework.

## Course outline

- Basic concepts
- Typescript
- Modules
- Components
- Routing
- Services
- Observables
- Http
- Forms
- Testing

Note: These are the topics normally covered but might alter slightly depending on the needs of the trainees.

## Target audience

The course is aimed at those that have some experience in JavaScript and want to learn a new framework.

## Prerequisites

At least a small amount of prior JavaScript experience is required. The course does not require prior knowledge of AngularJS.
