HTML/CSS fundamentals

Course details

Duration: 3/4 day **Cost:** \$570 (ex gst) **To register email:** training@catalyst.net.nz

About the course

Come and learn about HTML and CSS, the building blocks of the web. Learn how to identify different types of content for the web, and convert it into semantic, accessible HTML.

We'll teach you the basics of presentation — how to set up base styles, and work up to more specific CSS. By the end, you will have styled your own web page.

The course is hands on so you'll get a chance to have a go yourself, with the support you need to help you if you get stuck.

Course outline

- Structure of a web page
- Semantic HTML
- Introduction to common elements: links, images, lists
- Why we need CSS
- Anatomy of a CSS rule
- Types of styling we can apply
- CSS box model
- Display and positioning
- Specificity
- Workflow and debugging

Note: These are the topics normally covered but might alter slightly depending on the needs of the attendees.

Target audience

Anyone wishing to learn the fundamentals of HTML and CSS, whether new to the subject or not.

Prerequisites

None.
