Intermediate database techniques

Course details

Duration: 1/2 day **Cost:** \$380 (ex gst) **To register email:** training@catalyst.net.nz

About the course

This course is a follow-on from our Introduction to databases course. It covers even more useful techniques for interacting with SQL Databases.

Course outline

- Initial Setup
- Datatypes
- Functions and Operators
- Query Execution
- Joins and Sub Queries
- Views And View Like Constructions
- Aggregates

Note: These are the topics normally covered but might alter slightly depending on the needs of the attendees.

Target audience

Anyone currently working with SQL databases who wants to take their knowledge to the next level.

Prerequisites

Attendance at the Introduction to database course, or equivalent experience.
