Koha Librarians workshop

Course details

Duration: 1 day

Cost: \$650 (ex gst)

To register email: training@catalyst.net.nz

About the course

Sometimes Koha librarians say to us, "We've been using Koha for a while now, and we want to do more, but we don't know what we don't know".

This course is aimed at those people. It's 'advanced' Koha user training.

Course Outline

- changes you can make to your OPAC/public interface
- report writing tips
- making your Koha data useful to your users - more than just scheduling reports to be emailed
- what's new and upcoming in Koha
- other topics that the group may show interest in on the day.

Note: These are the topics normally covered but might alter slightly depending on the needs of the trainees.

Target Audience

Librarians or other users who have had good exposure to the Koha program.

Prerequisites

Currently using Koha.
